

Part Number	Digital Signage Players - Product Description	RRP (£)
<b>PRO Series</b>		
SMP PRO4	 <p>The SMP-PRO4 supports most popular codec and file formats, such as MPEG-1/2/4 ISO, MP3, WMV 7/8/9, WMA 7/8, DivX, RAW DV, JPG, GIF, etc. It also supports resolution upto 1920 x 1200 including standard and wide screens formats. It comprises of 1 Multimedia area, 2 Slide show areas, 1 ticker and clock/date. This new fanless design continues Cayin's traditional approach of providing simple to use products designed with the end user in mind. The PRO4 includes an aux S/Video input. <b>Portrait and Landscape output.</b> Inc 160Gb Hard Disk.</p>	£1,005
SMP PROPLUS	 <p>Player offering same abilities as the PRO4 but with added benefit of 2 video areas.(no aux video input)</p>	£1,216
<b>WEB Series (supports HID compliant touch screens to create interactive platform)</b>		
SMP WEB4	 <p>The SMP WEB4 supports most popular web languages such as Flash® animation, HTML web page, image, and text. It can also playback streaming video, when incorporating with Cayin CMS server. Supported video codecs and image file formats include MPEG 1/2/4, AVI, WMV 7/8/9, WMA, DivX, MP3, RAW DV, JPG, GIF. Supports diversified resolutions for both standard and wide screens unto 2048 x 2048. SMP-WEB4 adds the ability to play real-time video (AV in) by directly connecting to a TV tuner, DVD player, camera. Inc. <b>Portrait and Landscape output.</b> 160GB Hard Disk. <b>Now supported by the Skin Editor to create multi zone layouts</b></p>	£1,110
SMP WEBPLUS	 <p>Web-based dedicated digital signage player supporting full-screen HTML/Flash/JPG, HD (high definition) video, and streaming video playback both in landscape and portrait presentations. It is designed for the most flexible multimedia presentations and deployed under an open structure for easy integration with various applications. Its high power processor allows two videos to be replayed at once. Ideal for interactive applications. Supports 2 video zones. 80Gb hard disk as standard.</p>	£1,363
SMP WEBDUO	 <p>Unique player to the market. The WEB DUO features two outputs which allow you to configure your displays in a number of ways. Both screen outputs can show different images and can run separate playlists, or you can stretch your display across two displays. Portrait and landscape formats are supported. Inc 320Gb SATA drive and full HD support</p>	£1,853
SMP Wireless	Specific wireless LAN adapter for Cayin devices	£108

1) signagelive is a Software-as-a-Service application and attracts an annual licencing fee as outlined in the table above. After the first year, the annual cost is reduced as shown however to benefit from the cost incentive of the 2 year extension†, this must be purchased at time of original licence purchase, i.e. SLL-SWL-1 + SLL-SWI-EXT2 together.

2) signagelive observes a fair usage policy of 1GB per month per device. If 1GB is exceeded on a regular basis Remote Media reserve the right to invoice for additional usage.

3) The Virtual Player is charged based on a total bandwidth usage in increments of 1GB. You can have limitless devices such as intelligent digital photo frames, SMIL compatible hardware etc... connected to the virtual player.

4) Pricing is based on volumes of up to 100 licences. Please contact us to obtain project pricing if you require more View End User Licence Agreement - <http://login.signagelive.com/Downloads/eula.pdf>
